**Public Works Report**

For 7/19/21 Meeting

**Streets Dept.**

The last two weeks have been filled with efforts in making the festivals that are held here in town go as smooth as possible. We made some advancements in the electrical connectivity for the festivals. Every year we are making things a little more streamline for the setup and teardown process. It has been a group effort.

**Parks**

There have been continued efforts at the pool to make sure things are running smoothly.

As usual, Jayne and her helpers have done a tremendous job beautifying our parks. If you get a chance, you should take a stroll to 2<sup>nd</sup> Ave. and 6<sup>th</sup> St. NW and check out the renovation to that little park area.

Our summer help Crew has been doing a great job with the mowing and upkeep at the parks and City facilities.

In a week we will be administering our 4<sup>th</sup> month of treatment to the quarry pond at Nature Park. Things are already starting to look considerably better. The water clarity is great. You can see the growth from the bottom that we are trying to eliminate now. PH levels have remained neutral throughout this entire process. Melissa Beckius from State Industrial Products has been assisting us with the applications as well as documenting any change in conditions. Melissa has indicated that if we could put some form of aeration into the quarry, then we could expedite this process and save money on future treatment. If the water keeps moving then the algae, watermeal and duckweed have a more difficult time growing which in turn would provide a more permanent cleaner and healthier aquatic environment. I have looked

into a single pole erected windmill aeration system that would require no electric, little to no maintenance and would prevent anyone from climbing up or on and falling off as a traditional A-frame one would allow.
